

Wastewater Utility Green Power Report

September 2013

Electricity Generated this month: **67,710 kWh (kilowatt hours)**

This amount of electricity would have cost **\$4,739** if it had been purchased from Duke Energy.

8,331 gallons of grease were processed in our digesters for the month.

43 tons of food scraps were processed this month.

16% of our plant's power has been generated on-site this year.

The City of West Lafayette's Wastewater Utility has pledged to generate at least 10% of its electricity on-site in 2013 as Indiana's first wastewater plant to become an EPA Green Power Partner.
